- Fully compliant with **BS EN 1570**.
- Robust design.
- Designed for off centre as well as uniformly distributed loads.
- Full range of controls devices.
- Wide range of applications.

Work station lifting table

model ARWS

Features

With the advent of the Manual Handling of Loads Legislation some years ago the use of lift tables as work stations has increased, to the benefit of both employers and employees.

The Armo ARWS series of lifts is designed to accommodate a diverse range of applications to fulfil the requirements of manual handling legislation.

Whether you need to feed and stack flat sheets or assemble complex engineered products Armo have a lift to make the operation easier and safer with a broad offering of sizes and capacities, Armo can provide a solution.

Armo lifting tables are simple and robust in design and construction, from the rolled steel angle base frame through to the solid steel plate arms right through to the structured platform the lift is constructed to last.

Safety features

Safety with lifting tables is paramount and Armo lifts are fully compliant with **BS EN 1570** incorporating all the safety features you would expect:

- Peripheral safe edge with reset feature
- Chainmesh guards under exposed sides
- Designed handrails, barriers and interlocked gates
- Rupture valves in the unlikely event of hose burst
- Easily accessible maintenance prop
- Remote / on-board emergency stop
- Low voltage dead-man controls

Armo have been manufacturing high quality loading bay and lifting table solutions since 1972, for further technical or pricing information please contact our head office:
