

strapex

Stand alone, mobile machines for plastic strapping

Simple solutions

For shipping departments with small to medium volume of packages

Model SMA 20

User friendly machine for various applications

Adjustable table height

Accurately adjustable strap tension from 5–500 N

Use of Polypropylene strap, widths from 5–12 mm

Fast and easy coil change

Mounted on castors and single phase electrical supply, affords maximum mobility

Simple to operate with fast strapping speed

Cycle starts automatically when strap is inserted

Versatile

For the daily shipping of single or collective packages. Also protects against pilferage.

Easy to maintain and energy saving

Automatic motor shut off after each cycle

Clearly arranged control panel

No overhanging operating functions

Model SMA 10

Economical alternative for shipping departments with small volume of packages

(33 x 24", 33 x 31", 41 x 31", 49 x 31")

Model SMA 30

Automatic machine for medium volume of packages

For use as a stand alone machine or integrated into a packaging table

User friendly

Simple strap threading device

Additional products

High performance machines

Semi-automatic machine for 5/6 mm plastic strap

Very easy handling:

- All operating functions with foot pedal
- Strap tension adjustable with press button

Up to 70 cycles per minute

Automatic machines

with integrated conveyor for new or existing production and packaging lines

The Strapex Advantage

Machine, Strap and After-Sales Service as a total package

The right machine

Due to the flexibility of their machine construction programme, Strapex can offer tailor-made solutions for customers individual applications.

The right strap from our own manufacturing plants

A comprehensive range of plastic straps each with their own characteristics to ensure that strap and equipment are always the best possible combination!

Worldwide Sales and Service

You will receive expert advice on choosing the right solution and service package together with the guaranteed availability of spare parts.

Additional products for the transport securing sector

- Machines for vertical and horizontal strapping of palletised goods
- Hand tools for plastic and steel strapping
- Pallet stretch-wrapping machines
